GIA NATURAL DIAMOND GRADING REPORT

 July 17, 2024
 GIA Report Number *****42125
 Shape and Cutting Style Oval Brilliant
 Measurements 16.88 x 11.24 x 7.02 mm

GRADING RESULTS

 Carat Weight 8.58 carat
 Color Grade D
 Clarity Grade VVS1

ADDITIONAL GRADING INFORMATION

 Polish Excellent
 Symmetry Excellent
 Fluorescence None
 Inscription(s): GIA *****42125

PROPORTIONS

Profile not to actual proportions

CLARITY CHARACTERISTICS

KEY TO SYMBOLS*

- Pinpoint

DIAMOND TYPE CLASSIFICATION FOR GIA DIAMOND GRADING REPORT #*****42125

Scientists classify diamonds into two main "types" - type I and type II - based on the presence or absence of nitrogen which can replace carbon atoms in a diamond's atomic structure. These two diamond types can be distinguished on the basis of differences in their chemical and physical properties. Type II diamonds contain little if any nitrogen and they are subdivided into two groups (IIa and IIb) both of which are quite rare (less than 2% of all gem diamonds).

According to the records of the GIA Laboratory, the 8.58 carat Oval Brilliant diamond described in GIA Diamond Grading Report #*****42125 has been determined to be a **type IIa** diamond. Type IIa diamonds are the most chemically pure type of diamond and often have exceptional optical transparency. Type IIa diamonds were first identified as originating from India (particularly from the Golconda region) but have since been recovered in all major diamond-producing regions of the world.

Among famous gem diamonds, the 530.20 carat Cullinan I and the 105.60 carat Koh-i-noor are examples of type IIa.

The information specific to the article described in this document ("Information") is a part of the GIA Report referenced herein (the "Report") as if such Information was included in such Report. The Information was obtained using the techniques and equipment used by GIA at the time of examination. Neither the Information nor the Report is a guarantee or valuation. For additional information and important limitations and disclaimers, please see GIA.edu/terms or call +1 800 421 7250 or +1 760 603 4500.

The limitations and disclaimers on the Report and in the client agreement with GIA governing the Report apply to the Information. By requesting GIA to provide this Information, you agree that you will not provide it to any person or entity without also providing the Report (or a copy of the Report).
