GIA NATURAL DIAMOND GRADING REPORT

January 29, 2024

GIA Report Number *****38034

Shape and Cutting Style Round Brilliant

Measurements 9.78 - 9.84 x 6.02 mm

GRADING RESULTS

Carat Weight 3.50 carat

Color Grade D

Clarity Grade Flawless

Cut Grade Excellent

ADDITIONAL GRADING INFORMATION

Polish Excellent

Symmetry Excellent

Fluorescence None

Inscription(s): GIA *****38034

PROPORTIONS

Profile to actual proportions

DIAMOND TYPE CLASSIFICATION FOR GIA DIAMOND GRADING REPORT #*****38034

Scientists classify diamonds into two main "types" - type I and type II - based on the presence or absence of nitrogen which can replace carbon atoms in a diamond's atomic structure. These two diamond types can be distinguished on the basis of differences in their chemical and physical properties. Type I diamonds contain small amounts of nitrogen and they are subdivided into two groups (Ia and Ib) based on how the nitrogen occurs in the diamond's atomic structure. When the nitrogen atoms are aggregated in the structure, the diamond is classified as type Ia.

According to the records of the GIA Laboratory, the 3.50 carat Round Brilliant diamond described in GIA Diamond Grading Report #*****38034 has been determined to be a **type Ia** diamond. Type Ia diamonds are the most commonly encountered diamond type and occurs in a range of colors from near-colorless to yellow and brown. Because of their historic occurrence in South Africa, type Ia diamonds are often called "Cape" diamonds. Today, diamonds of this type have been found in all major diamond-producing regions of the world.

Among famous gem diamonds, the 127.00 carat Portuguese and the 101.29 carat Allnatt are examples of type Ia.

The information specific to the article described in this document ("Information") is a part of the GIA Report referenced herein (the "Report") as if such Information was included in such Report. The Information was obtained using the techniques and equipment used by GIA at the time of examination. Neither the Information nor the Report is a guarantee or valuation. For additional information and important limitations and disclaimers, please see GIA.edu/terms or call +1 800 421 7250 or +1 760 603 4500. The limitations and disclaimers on the Report and in the client agreement with GIA governing the Report apply to the Information. By requesting GIA to provide this Information, you agree that you will not provide it to any person or entity without also providing the Report (or a copy of the Report).
